# 20 Years of Right Stuf

## • PART 1 •

### In the Beginning... (there was space)

In the beginning, it wasn't about anime at all. It was about space. A Des Moines entrepreneur named Todd Ferson wanted to buy nice telescopes without paying full market price for them. So he formed what in business-speak is known as a "shell company."

A shell company is a basically a company without any assets of its own which exists only to facilitate the business dealings of its owners. Todd, of course, used his "company" to purchase telescopes at wholesale prices. Feeling grandiose, he called it "The Right Stuf." Yes, with two f's. The name was in honor of the 1983 astronomical film *The Right Stuff*, which Todd was a big fan of. Eventually, he expanded the "company" and sold telescopes to others, bringing in The Right Stuf's very first profits.

It wasn't long after the telescope sales started taking off that Todd had another idea: *Astro Boy*. The series had been one of his favorite childhood shows and no matter how hard he looked, he hadn't been able to locate a copy of it anywhere. So, why not use the fledgling company to acquire it? But he'd need help doing the legwork, so he called up his friend Iowa State University student Shawne Kleckner. (Hopefully, that name sounds familiar to you from page 3.) Shawne thought it was a great idea.

In 1987, a global search began to locate the series. After visiting with the series' original US producer, Fred Ladd, Todd was able to make contact with the rights owner in Japan, and he negotiated for a license to release the show in North America.

License in hand, the company was ready to release its very first product - except for the one very small, teeny-tiny technicality. The Japanese rights holder didn't actually have any copies of the English version of the program. The version Todd remembered so vividly from his youth had been an adaptation produced by NBC from the original *Astro Boy* series released in Japan. So although they now held the rights to sell the series, they didn't have anything to *sell*. It would be Shawne's responsibility to put together something they could actually market.

But first, they decided to change the name of the company to something that would stand out a bit more in the business world: The Right Stuf, now with only *one* f. The idea was that the misspelling would help the new company be more memorable - and it worked, as my spellchecker never lets me forget.

### Go, Go, Go Astro Boy!

Unfortunately, one of the first things Todd and Shawne discovered was that the original NBC masters for *Astro Boy* had all been destroyed in 1975. That left only one avenue of hope: that someone, somewhere, had gone against official policy and hoarded copies of the film prints (the film reels sent to local TV stations so that they could air the show). Fortunately, even before eBay was invented, it turns out people were still packrats.

In fact, it turned out that since first airing on American television stations in the 1960's, the film prints for this simple children's program had been spread far and wide - much further than either of them ever expected. During their hunt to track down every fan, collector, and TV station which might have a copy of an episode, reels turned up from countries as far away as Australia, Zimbabwe, and Tibet. It was a clear indication of the beloved global status *Astro Boy* had achieved, but it also wreaked havoc with the funds allocated for shipping the film prints back and forth.

Eventually, enough episodes were found to begin piecing together Right Stuf's very first release. Of course, *finding* them was only the beginning. There was still a lot of work to be done before the first tapes could be solicited to fans. The footage had to be organized, the film prints needed to be cleaned up, and the packaging still had to be put together. Shawne learned the hard way to never, ever, accidentally unroll a film reel unless you wanted to spend a week rolling it back up again.

Finally, in 1989 after two years of hard work, *Astro Boy* (and Right Stuf) were ready for the big time - or at least a couple of fanzine advertisements. Right Stuf's very first release was a VHS tape that contained two episodes of *Astro Boy* and retailed for \$24.95. It was released in 1989 and was advertised in fanzines, film collector's and sci-fi magazines, and other places where underground fan-to-fan tape trading was already going on.

More volumes quickly followed the first, and Right Stuf debuted its mail-order catalog later that same year. Resembling more of a pamphlet than the behemoth it has grown into today, that first issue contained only four products: all *Astro Boy* tapes.

Fortunately, *Astro Boy* swiftly proved popular and sales were brisk. Fans were hungry for childhood nostalgia and Japanese cartoons, and Right Stuf was ready to give them what they wanted.

### Classics and Catalogs

One classic 60's show having proven its worth, Shawne and Todd continued to acquire and release nostalgia titles. In 1990, Right Stuf began distribution of *Giganator*, which had also been originally produced in the US by Fred Ladd. *Tobor, the 8th Man* followed swiftly on its heels in 1991. Between the three shows, there was a huge number of episodes and tapes to release, and behind the scenes, Shawne was handling almost every aspect of production alone under the title of "Executive Director."

Seeing the success of *Astro Boy* and *Giganator*, both of which appeared on Tower Records' top-sellers list in 1991, Shawne began to explore where the retail side of Right Stuf's business could go. Since customers were always asking for more anime, why not expand the mail order catalog to include titles from other companies as well? He began approaching other companies who were also dealing in anime at the time, including Streamline Pictures, Central Park Media and AnimEigo, to see about adding their titles to his mail-order business.

The inquiries paid off, and by 1992 the catalog had grown from that single-page pamphlet to a four-page fold-out spread. While that admittedly may not sound like a lot in today's market, for '92 that was pretty impressive. The product listings had grown more than 10 times their original size to reach over 40 individual items, ranging from VHS tapes to merchandise such as t-shirts, posters, and animation cels of *Giganator* signed by Fred Ladd himself. There were even issues of the early anime magazine *Animenonimus*, which was produced by Jeff Thompson. You could pay for your goodies with your choice of check, Mastercard, or Visa, and strikingly absent was a manga or graphic novels section, as that boom had yet to reach the United States. With the expansion of the retail side of things, the 1992 catalog also proudly proclaimed the company to now be "The Right Stuf International." We were ready for the big time.

### Right Stuf Graduates to University

Up until 1994, Right Stuf had been operating out of what was essentially a large closet. But with the entire industry continuing to expand and the number of products available increasing rapidly, Right Stuf was quickly outgrowing its space. It was time to move.

In 1994, Right Stuf moved into its first real office. It represented a huge step for the company, but the office itself was definitely *anything* but big. Located on University Boulevard in Des Moines, Iowa, the suite consisted of two fairly good-sized rooms. One served as the multipurpose work area for receiving/shipping/answering calls/desk area while the second room was the "warehouse," and believe me when I say I'm being generous with that term. Said warehouse contained all of two shelves: one held products that were available and the other held those that had been sold. Allocations were essentially made by moving copies from one table to the other. It wasn't exactly high tech, but it did work.

In fact, at this point in time *everything* was still being done by hand. While computers were growing in popularity, they were still a very proposition for a company with just two rooms to its name. Shipment labels were handwritten and credit-card orders were filled out using good old carbon copy forms. *No one* was more excited about the advancement of technology than Shawne when he learned he would never have to fill out another carbon copy form ever again.

Hoping to spread the carbon-copy load (and to actually get some sleep at night in-between labeling shipments), Shawne slowly began expanding Right Stuf's employee pool. Previously, Right Stuf had had one part-time employee plus Shawne, who was still working part-time himself in-between his duties as a full-time college student. Kris Kleckner, today's head of production and design, began working summers in 1994. Alycia Cohee, our General Manager, started in 1995. And most notably, Jeff Thompson, Right Stuf's first dedicated producer, was hired in 1994. Jeff took over production of the company's titles and mail-order materials, and would leave his distinctive stamp on every catalog produced during the rest of the decade.

Of course, back then, it didn't matter so much what you were hired for or what exactly your job title was. There was only one *real* job at Right Stuf: Jack of all Trades. Everyone - including Shawne - had to know how to enter orders, put together an outgoing shipment, answer phones, and - most importantly during an Iowa winter - shovel snow. Every day, one person would take the piles of shipments to the post office and return with bundles of new orders received in our PO Box. If we had 50 outgoing orders in one day (which back then was considered an overwhelming number), then the designated employee was truly pilled.

On the anime production side of things, growth was happening, too. 1994 saw Right Stuf's first ventures outside of "classic" anime and into more contemporary titles such as *Toward the Terra*, *Legend of the Forest*, and *Godmars*. Later in 1995, we also added *Al City*.

The catalog was growing right along with everything else, and by 1994 the small pamphlet had been transformed into a large 64-page bound booklet. For those keeping track, that's *exponential* growth from those 4 little pages just a mere two years before. 1994 was the first catalog to introduce Right Stuf's now standard 10% discount. At the time, the pricing structure was available only for subtitled-releases during that year, with the explanation that we felt the pricing scheme of tapes in general at the time to be "a little silly." The next year, we would extend the 10% discount to dubbed tapes as well.

But biggest of all in '94 was the advent of the Right Stuf website. Naturally, it being still early in the internet revolution, we didn't have our own domain name, as we do today. Our first address was the memorable <http://www.infonet.net/showcase/taitei> (try typing *that* into Google). The early website was very much a product of its times, complete with a splash page, spinning graphics, and the then ever-present frames that dominated the nineties. It would eventually go through many, many redesigns before finally settling on a more distinctive and permanent setup in 1999.

## Anime (and Right Stuff) on the Rise

During the second half of the 90s, anime continued its exponential expansion as more and more companies popped up and acquired new series for US release. *Akira* was burning up the best-sellers' lists. Shows like *Evangelion* and *Escaflowne* were redefining expectations. The hentai boom was huge and giving rise to some early misconceptions about what this "Japanimation" thing was.

All the while, the Right Stuff catalog continued to evolve and change right along with the industry. Its only constant was Shawne's introductory letter on the front page, which in every catalog to this day mentions the steady growth of the industry - and the increase in the number of our product listings along with it.

It was obvious that times were changing, and signs of it were filtering into the catalogs' FAQs. There were questions about the early-yaoi title *Kizuna* (yes, we were carrying it), TV series (outside of *Ranma 1/2*, very few companies had any, but we'd carry them if they did), and *Mobile Suit Gundam* (no, it wasn't licensed, but we'd carry it when it was).

With the entire market booming, 1996 saw Right Stuff already needing to move again. This time it was across town into the back half of a suite on 104th Street in Urbandale, IA. Over the course of the next nine years, we would cannibalize the rest of the suite front of us, then the suite next door, the one next to that, and so on, until we had maxed out our space once again. We had long since outgrown those original two little shelves, and the enormous number of products going in and out each day had increased to the point where we gave up taking everything to the post office ourselves and paid them to come to us.

## Branching Out

By 1996, Right Stuff was firmly established as the premier resource for fans looking for their anime fix. Along with general questions about orders and whether their cards had been charged, we were getting a lot of questions about products from other companies as well. Seeing an opportunity, Shawne approached some of the smaller companies (actually, most of the anime companies were still small at the time) and proposed that they outsource some services to Right Stuff, such as customer service. That way, customers would still get knowledgeable representatives, and the other companies could focus on what they did best - producing anime.

Over the years since then, we've taken care of a multitude of services for a number of different companies. (If you were wondering why Geneon's email address ends in "rightstuff.com," now you know.) And it hasn't all just been answering customers on the phones, either. Between answering mail, handling data entry, creating webstores, and processing fulfillment, we've done just about everything at some point for one company or another in the business.

And of course, by now the catalog had taken on a life of its own. It had reached a massive 144 pages with over 2,200 individual items listed for sale, and was generating serious eyestrain for its poor proofreaders. But with the use of the internet becoming more widespread, even that monolith was starting to have some competition. Online shopping was becoming more popular and our web store was taking more and more orders all the time. In September 1996, our website moved from its previous long domain to its current and final home: [www.rightstuff.com](http://www.rightstuff.com).

## Captain Tylor Arrives!

With the advent of 1997, Right Stuff reached its ten-year birthday, and celebrated the milestone with new licenses! First up that spring was *Leda: The Fantastic Adventure of Yohko*, an OVA series. But *Leda* would be quickly overshadowed that fall by what is still Shawne's favorite anime series: *The Irresponsible Captain Tylor*.

*Tylor* was a big announcement in many ways. It was the first series for which we launched a dedicated website to go with the show: [www.tylor.com](http://www.tylor.com). It was the first TV series (as opposed to the shorter OVAs) that we would produce an English version of ourselves, instead of relying on previously created materials. And in a very unusual move, we announced a "fansub amnesty" program, wherein anyone could send in a copy of their VHS *Tylor* fansubs for a 50% discount on the first volume of the show. This program has never been duplicated by any company and likely never will, thanks to the advent of the digital era.

Rare for the anime industry, *Tylor* even spawned a record label. Always ready to fill an empty niche, Right Stuff had been producing merchandise to go with its titles all along (*Astro Boy* shirts, anyone?), but in 1997 we expanded further, this time into the realm of music. Creating the label "Stuftoonz," we released two of the soundtracks for *The Irresponsible Captain Tylor*.

## A Bright Outlook

And so the first part of our narrative concludes with Right Stuff celebrating its tenth anniversary and a full decade of satisfied anime customers. Meanwhile, the anime star was shining brighter than ever. Internet forums and Usenet groups were taking off as anime fans discovered each other online and congregated. Anime conventions, such as Anime Expo and Otakon, were growing every year, as were the number of sailor scouts cosplaying. DVDs were poised on the horizon to finally end the eternal dub-versus-sub wars that had raged since the VCR was invented. Manga was slowly working its way into the comic book stores as carefully colored versions of *Akira* and *Oh My Goddess* were published.

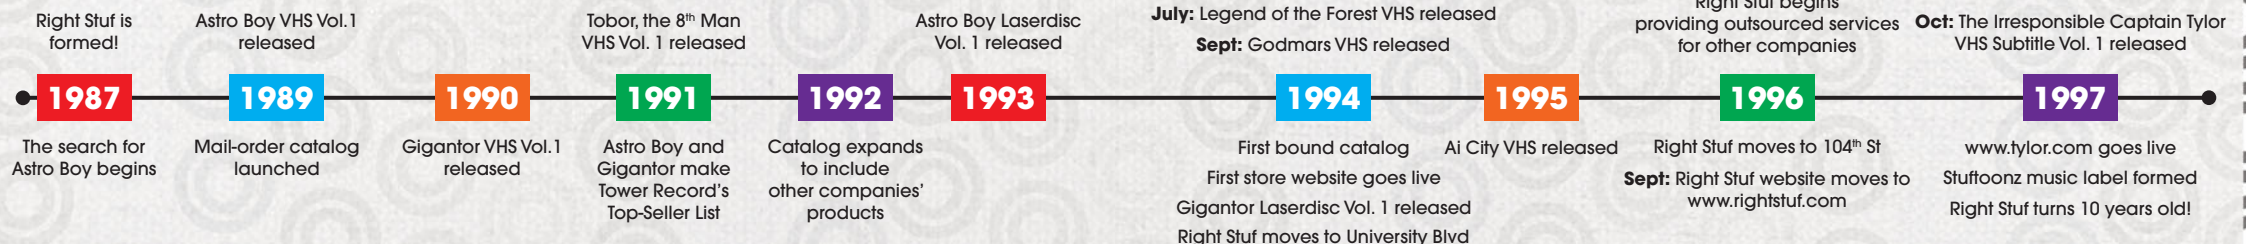

It was a very good time to be a fan (and anime retailer), but even better times were just around the corner...

**To be continued in Part 2, Fall 2007!**

## 10 YEARS AT A GLANCE

## ITEM LISTINGS

## Ratings System

To benefit our customers, we have implemented a rating system for many of our products based on our staff's knowledge of each title's content, as well as input from the various anime suppliers.

## N/R

This title has not been rated.

## ALL

Generally acceptable for children. No nudity. Possible mild violence.

## 12+ 13+

May contain violence, brief nudity, and/or mild language. May suggest sexual situations, but no such situations are shown. Parental discretion advised.

## 15+, 16+, 17+

Strong violence and strong language. Prevalent nudity may be contained within the picture. Mild sexual situations may be shown.

## 18+

Extreme violence, explicit nudity, and/or extreme language may be contained in the picture. May contain sexually explicit material. Absolutely not for anyone under 18 years of age.

Please note: Ratings used within our system are oftentimes provided by the manufacturer. Because of the differences in ratings used by these companies, we have combined their systems with the descriptions of the ratings listed above. Right Stuf does not set ratings (except for its own products) and is not responsible for errors, omissions, or inaccurate ratings. These ratings are guidelines only, and are subject to change.

## Running Time / Video Length

Next to the age rating of each item, you will see the approximate running time listed for each video. Depending on the manufacturer, running times may or may not include extra bonus features such as previews. A N/A indicates that the running time is not available.

## Edited and Uncut

Although many fans screech in horror at the very thought of altering the original Japanese version of a show, for a series to make it to American TV (or even into some retail stores) they must often be edited. This means that scenes containing nudity, excessive violence, blood, and foul language are altered or even totally removed. Anime purists may want the original in all its glory, but parents of young TV viewers do not. Manufacturers recognized this and often release both the Edited (TV Version) and the Uncut (Original Version) of the show.

## Closed Captioning (CC)

While most DVDs have subtitling, not all have Closed Captioning (CC). For those titles which we know have this feature, we have listed CC in the line containing the item's part number.

## DUB ONLY? SUB ONLY?

Although DVDs allow for the possibility of dual languages, it is not always possible to license a title for dual language release in the States. So, you end up with manufacturers

releasing Subtitle Only (SUB ONLY) or English Dubbed Only (DUB ONLY) DVDs. Subtitled DVDs display the dialogue on the bottom of the screen while the actual voices are still in Japanese. Dubbed means the music (probably) is intact, but the voices have been redone in English. In our online system, you will note that subtitled is represented by (S) and dubbed is represented by (D). You might also see (Hyb), which means that both the subtitled and dubbed versions are on the same DVD.

## Release Dates

If an item has not yet been released at the time of this catalog's printing, you may see a release date listed for the item. However, manufacturers can (and often do) change these release dates due to production delays. If you are ordering an item with a release date and are concerned whether this item is on schedule, please feel free to check the item's release date through its online listing, contact Customer Service at 1-800-338-6827, or even email Customer Service at info@rightstuf.com.

## Mosaic

The digital "mosaic" effect is sometimes placed over the relevant bits during a particularly adult sequence prior to the title being exported from Japan. When we are aware that a particular volume or title has this effect, we'll mark it as Mosaic in the volume listing.

## OVA (OAV)?

This means Original Video Animation. In normal terms, this means a direct-to-video release.

## Essential Anime / Anime Legends / Signature Series Editions

On certain DVDs, you will see them marked as "Essential Anime," "Anime Legends," or "Signature Series." These are re-releases of the original DVDs at lower prices. However, these new versions may or may not include all of the features that were found on the original release. If you are concerned that the DVD you are considering buying might not contain the features that you're looking for, please feel free to contact Customer Service or check the item's listing through our online store.

## GENERAL

## Why do you charge for your catalog?

Unfortunately, paper does cost money. In order to keep producing a printed catalog, this means that we have to charge a small fee for it (but don't you think it's worth it)? However, first time customers can get their money right back by using the \$4 off coupon on page 107! (Not to mention the tons of other great coupons back there.)

## Will I get your next catalog?

If you've ordered something from us in the last 6 months, you will automatically receive the new catalog when it is shipped. If not, you may find that you'll stop receiving catalogs (and you will have to send us the current catalog fee to reactivate).

## When does your next catalog come out?

Why, every spring and fall!

## Where are the Adult products?

Since our catalog is delivered to anime fans of all ages, we've taken special precautions to ensure that the younger fans are not exposed to products that contain explicit violence, adult situations, or sexual content (18+). Products of this nature have been placed in a special section just for adults. Please feel free to remove this section - it really won't hurt our feelings.

Please be aware that this does not mean that all items in the regular sections are intended for young children. To help parents, we've taken special care to make sure that products are marked with age ratings.

## What's this "Got Anime" thing?

An easy way to get an additional discount on your favorite anime items. For a small yearly membership fee you get additional discounts, a Got Anime button, newsletters, and members only specials! Read more about the Got Anime Purchasing Club on page 10. Please note that international members of the club will no longer receive mailings, due to postage cost, but newsletters are available online.

Memberships are non-transferable, and will remain with the billing address of your account. If you move, please make sure to contact us with your updated information so that we can update your membership information.

## Why don't you carry that many imports?

Limited availability of imports and lack of timely distribution of such overseas items make it difficult to provide quality imports on a timely basis. We are continuously scouring the market to find a stable way to bring imports to our customers and hope to do so in the future.

## Why don't you have &lt;Title Here&gt; Audio Soundtrack CD from Japan?

Um... I know I'm getting bad at geography, but I'm pretty sure that's an import - see above question regarding imports. You also might want to check our Soundtracks section because a number of titles are now being released domestically.

## I really want to learn Japanese...

## What resources do you have?

Tons! Right Stuf now has an entire section dedicated to helping our customers learn about Japan and the Japanese language! Whether you're just starting out or you're ready to move onto the next level, make sure to check out our "Language/Culture Books" section on page 40. It includes everything from textbooks and workbooks to memory aids and intermediate readers!

## Can I get a new order form?

You can give us the information on the form or on any scrap of paper. As long as we can read it, you're fine (hieroglyphics just wasn't our specialty in any life). You can also print one from our online pdf at: www.rightstuf.com/orderform

## How can I check on my order?

If you placed your order through our online store (www.rightstuf.com) you can check your order status when you log in. Otherwise, simply call our friendly Customer Service people at 1-800-338-6827 or email us at info@rightstuf.com.

## How long is a typical item "out of stock" for?

With a few exceptions, DVD delays can be measured in days. There are some freak delays, but 2-4 weeks is usually a safe figure. However, please keep in mind that some items are directly imported from Japan, and may be in short supply even there, and should the vendor be out of stock at the time of our re-supply order with them, it may be a bit longer. We keep thousands of items in stock, and our computer system automatically adjusts stock levels based on demand.

## Can I use my coupons for an online order?

Yes, you can. Simply use the Coupon Code that is on your coupon when you place your online order. You can only use one coupon per order and only one catalog coupon per customer.

## Can I order online Daily Deals or Special Pre-Order Discounted items through the mail or over the phone?

Sorry, but these special offers are only available through our online store at www.rightstuf.com and if you check in often enough, you might find some amazing deals online!

## How many coupons can I use?

You can only use one coupon per order and some coupons can only be used through our online store. Please see coupon details for specific restrictions.

## Do I need to add sales tax?

Only if you happen to live in Iowa.

## If I move, should I inform you?

Certainly a good idea (Right Stuf would be the FIRST notice I'd send if I were you), especially if you want to keep getting stuff from us. Just drop us a quick note, giving us your old address and your new address, so that we can update our records.

## MAIL-IN ORDERS

I want to use your online store and I wanted to order, but I don't have a credit card? Help! Should you prefer to flip through the online store to select items, you can actually use it to place an order by mail! Simply select all of the items you want and place them

in your cart. When you proceed to checkout, make sure to choose the "faxed or mailed order" option. This will generate a printed form with everything already added up for you (no more calculators!) Just print this form and mail it in with your payment. Although you can use the online store to generate your order, nothing will be recorded by our system so make sure that you don't lose your form or you'll have to re-enter everything all over again! **Please note that online coupons are not valid on mail-in orders.**

## I saw a coupon on the internet can I use it?

Some coupons and short-term deals, such as "Shawnee's Daily Deals," can only be used through our website and cannot be honored for mail-in orders. This is generally due to specific date or manufacturer requirements which cannot be imposed on mail-in orders. Please review the specific restrictions of the coupon to see if it can be applied to your mail-in order.

## I saw a special deal / daily deal on the website. Can I put it on my mail-in order?

See coupon explanation above.

## Why do you hold my order for 18 days when I pay by check?

Even with all this cool technology, not all banks are utilizing Check21, and so checks can still require at least 18 days to clear. In a perfect world, this would not be so.

## What's this NSF charge?

"Non-Sufficient Funds" means, in English, your check bounced. This is bad. We will charge you for this. There is a \$25 charge for all returned checks.

## PAYMENT METHODS

## Do you take Discover / VISA / MasterCard / American Express?

Yes to all. About the only plastic that we don't take are standard ATM and gasoline cards.

## If I order using a credit card, when do you charge it?

Credit cards (by law in our state, actually) get charged only when the product actually ships. Unless there's some freaky deposit problem, that's the only time.

## I'm an international customer.

## What's with this extra data you need?

With international mail and credit card fraud becoming a growing problem, we felt it was better to ask you for additional information rather than charge everyone outside the country a lot more for their stuff. For first-time orders only, we require a copy of some form of address verification which shows your address along with a photocopy of BOTH the FRONT AND BACK side of your credit card.

For security purposes you may black out one set of digits. Upon request, Right Stuf can provide a secure website location for our international customers to submit this information. This policy only affects first-time international customers; however, should your address or credit card information change, we will request this information in order to protect you and to update our records. This policy is in place to help keep credit card fraud to a minimum and

to ensure that our customers have the utmost security when ordering with our company. This information is destroyed after verification.

## SHIPPING

## How long does it take to ship an order?

From the time we receive the order and place it in our system, standard processing time to ship it is 24-48 hours. If some of the items are on back order, it can take an average of 10-14 business days for us to receive the back-ordered items. Then standard processing time goes into effect.

## What are your methods of shipping?

Please see our order form for details and prices.

## Are there more shipping options available?

Additional shipping options are available for orders placed by phone or through our online store (www.rightstuf.com).

## How much is the shipping charge for prepacks / box sets?

Shipping is simple: use the amount for a SINGLE item.

## I'm not at home during the day.

## Can you ship to my office?

Certainly (in fact, we prefer to do this to ensure that you actually get your stuff), but please give us all the information that you can, including the name of the company, so that your friendly delivery person can get your package to you. We require that you include the business' name in the address. We are happy to work with you to get the product to you as quickly as possible. Unfortunately for American Express cardholders, American Express' own restriction policies will not allow this. You could also choose to have the product shipped to you by mail instead. Please note, this policy applies only to our domestic customers; for international customers, we must ship to the billing address on your credit card.

## I chose express delivery and my order still took 2 weeks to arrive. Why?

You must have ordered a product that we didn't have in stock at the time that we received your order. If an item is out of stock when we receive your order, we still ship it out by express delivery the moment we receive it from the manufacturer. Although we do keep significant stock on the items in our catalog, there are times when there may be delays getting items from the manufacturer, as discussed above.

## What happens if my country will not allow me to have this sort of DVD / My order was seized by the border ... what now?

Sorry. Please consult with the postal authorities of your country prior to placing an order for adult items. We will not be responsible for seized shipments, and cannot provide refunds for seized products.

## RETURNING MERCHANDISE

## When I got my &lt;insert title here&gt;, it was bad. What do I do?

If your merchandise is defective due to a flaw in manufacturing, we

are more than happy to replace the product. Unopened DVDs and VHS can be returned for Right Stuf store credit (or in the case of credit cards, refunded to the issuing card.) All returns/refunds must be processed within thirty (30) days of the date on your purchase invoice. If you need to complete a return/refund, please obtain a return authorization number from Customer Service at 800-338-6827 or visit our online request form at: www.rightstuf.com/requestform

## Do I have to pay shipping to return a product?

Yes, but we will pay the shipping to send the replacement back to you. We suggest using the least expensive shipping method available. Should an item have accidentally been shipped to you which you did not order, we will reimburse your shipping costs to return the item to us.

## The packaging said it would include "special items" but mine doesn't have it!

Unfortunately, we have no control over what the manufacturers decide to place inside of their products. Sometimes the manufacturers do provide special extras, but we cannot guarantee that these items will be inside of the products that we receive. However, should the item not be in your DVD, we would suggest that you contact the manufacturer directly. Of course, we are always happy to forward your request on for you!

## PRODUCT INFORMATION

## I saw this show that I think might have been Japanese Animation. Do you have it?

We get questions like this all the time in the company email box. If you can give us enough information, someone can usually identify the program. Please understand, though, that if you ask us about something where "there's a girl who's like a magic user, a guy with a sword who has big hair, and a villain who wants to take over the universe, and I think there are some cat girls in it" there's a problem. This describes about half the films ever made. Also, knowing what a series or movie is doesn't mean that it's available in the US as a licensed product, but it's likely that it is.

## Why isn't &lt;title here&gt; available in the US?

You might be surprised to find out how much anime is available in the US. Of the few titles that remain unlicensed, some titles have their rights disputed, some licensors want more money than a title can possibly generate in this market, and, of course, some are currently in negotiation. With the exception of a few TV series (which are a different matter entirely, due to their length), this just about covers it. We do not sell fan subs of non-licensed products or pirated copies of licensed titles.

## Can I special order items that are not on the website?

Simply put: if it isn't on our website, we can't get it at the moment.

## What are some good shows for children?

Although this is truly a matter of personal preference, we recommend Yugioh, Pokemon, Winx Club, Teenage Mutant Ninja Turtles, My Neighbor Totoro, Kiki's Delivery Service, Kimba, and Astro Boy for young anime fans. You might also consider the Sanrio titles like Hello Kitty. Look for the "ALL" age rating in item listings for child-friendly titles.

## What's the most horrible, tasteless adult anime you offer?

That really depends largely on the person you ask. Some would say Cool Devices and Night Shift Nurses, others Love Doll and Bible Black. These titles are certainly not for the squeamish, and are most definitely only for adults. Look for them in the Adult portion of the catalog.

## DVD SPECIFIC

## What is Region Coding?

Region coding is a geographical restriction for DVDs and players that allow for licensing of specific materials within different areas, or Regions, of the world. Since DVD players are region specific, you need to make sure that the DVD you purchase is coded for the same region as your player.

## What region is my DVD player?

If you purchased your player from a retail outlet in the US, it should be Region 1. You can check the Region coding on your DVD by looking for the Region Code symbol on either the silkscreen or the packaging.

## Region Coding List:

- 1- United States of America, Canada
- 2- Europe, including France, Greece, Turkey, Egypt, Arabia, Japan and South Africa
- 3- Korea, Thailand, Vietnam, Borneo and Indonesia
- 4- Australia and New Zealand, Mexico, the Caribbean, and South America
- 5- India, Africa, Russia and former USSR countries
- 6- People's Republic of China

## What Region are your DVDs?

We primarily carry Region 1 Discs. However, we do have a small handful of DVD titles that are multi-region and even Region-free. We've tried to mark them where possible.

## Why is THIS DVD better than THAT DVD?

Like many things, it's the talent of the people who did the mastering. Although the format supports a very high quality image, the preparation of the material determines how good the final will actually look.

## Can my DVD play in a Playstation / Xbox / personal computer?

It depends on the DVD. There have been instances of some DVDs having difficulty playing in certain players. While the vast majority of DVDs will work just fine, we cannot guarantee all DVDs will play correctly on your Playstation, Xbox or personal computer.

While you could wait for everything you need to finally get picked up for the States, you could also take the next step and learn Japanese yourself! To help you along on your quest, Right Stuff has created the section you see before you. We've gathered some of the top textbooks and learning aids to get you started along with many cultural books. Looking for something that you don't see here? Drop us a line and let us know what you're searching for!

Now, before you leap into this section, here are some notes on the Japanese language for total beginners:

Japan has three different sets of writing: hiragana (a syllabic alphabet usually used for native words), katakana (a syllabic alphabet usually used for foreign words), and kanji (symbols representing whole words/concepts). "Kana" refers to both hiragana and katakana. You'll want to start out learning kana, and then work your way up to kanji.

You've probably also heard the term romaji tossed around. Romaji is basically writing out Japanese words using the western ("Roman") alphabet. So while "dog" is "いぬ" in written Japanese, you may also see its romaji form of "inu" in Western textbooks.

The best way to get a true grasp on the language is to start with a series that focuses on hiragana and katakana, but some Westerners aren't as comfortable learning that way. For those of you who just want a quick jumpstart, you may want to check out the books that focus on romaji. We've tried to mark which style each book uses.

and assimilate what they learned in the textbook series above! This workbook offers more than 150 complementary activities divided into six sections that enable students to practice writing hiragana, katakana and kanji, as well as to optimize the vocabulary and grammar.
